

## Step 1: Print this document

Carefully follow these instructions to ensure an accurate measurement. Ring measurements are very precise so when printing this document be sure that Page Scaling is set to "None" on your print dialog box. To open your print dialog box, press CTRL+P on your keyboard. Print the document and measure the bar below using a ruler. The bar must exactly 30 mm long. If it not exactly 30 mm the measurement will not be precise.

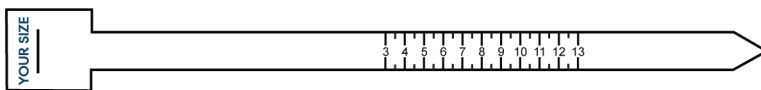

## Step 2: Measure current ring

- Find a ring that your loved one currently wears.
- Make sure he or she wears that ring on the finger you are shopping for.
- Measure: Place the ring on top of each circle until you find a match.
  - Inside Diameter: The match should fit perfectly on the inside of the ring.
  - Double Check: Measure the ring 2-3 times for accuracy.
  - If the ring falls between two sizes, order the larger size.

## Optional: Paper measurement

- Print and carefully cut out the paper ring sizer below.
- Cut a slit on the line next to "Your Size".
- Insert the pointed end through the slit to create a paper circle.
- Place your finger inside the circle and pull the pointed end through the slit until you have a snug fit around the finger.
- The number line that is closest to the "Your Size" slit in the paper is your ring size.

Be careful not to pull too tight to determine the proper ring size. The fit should be comfortable and snug. Always double check for accuracy.

We invite you to visit one of our locations to have your measurement taken by one of our associates.

|                    |                        |
